SUSHI ETIQUETTE

- Pickled ginger serves as a palate cleanser. The taste is quite strong and is only meant to be eaten in small portions between dishes.
- Soy dipping sauce: mix just enough to use, soy sauce adds a touch of umami flavor. It is a good manner to only use the sauce on the fish part of your sushi and not on the rice.
- It is considered bad manners to waste food, try to eat all the food that is ordered.
- It is generally considered best to eat sushi in one bite.
- Use the wasabi sparingly. Wasabi was used originally in the 19th century to kill parasites in the sushi fish, it is a common misconception that wasabi is a Japanese Horseradish.
- Sushi is finger food. You may use chopsticks to pick up the sushi pieces, but they may be clumsy tools. Using your fingers in this case is perfectly acceptable!

Our salmon is one of the finest export quality and 100% Norwegian Salmon. This means we only use the freshest Salmon that has never been frozen and is air freighted in from Norway.

Efficiency, quality, service, a warm welcome and a child friendly environment is what you will expect from us. Please feel free to engage with management at any time with ideas or suggestions.
